Background

The council has been successful in securing funds from Transport for London (TfL) to improve crossing facilities across Honeypot Lane.

We are therefore informing you of our proposals to provide a new traffic light controlled staggered pedestrian crossing along Honeypot Lane between its junction with Broadcroft Avenue and Dalston Gardens.

The proposals will allow all pedestrians, particularly the school children to safely cross the Honeypot Lane which can be busy with vehicular traffic and difficult to cross during peak periods. The council is also proposing to extend existing double yellow line waiting restrictions on both service roads adjacent to Honeypot Lane. These waiting restrictions are necessary to improve visibility and safety for vehicles and pedestrians using the service roads.

We need your views

Please return your comments on these proposals by Friday 30th June 2017.

If you are going to make comments to these proposals, the Council would encourage you to submit your response electronically as it is environmentally friendly and helps the council save costs. Please submit your comments by using the questionnaire on-line by visiting www.harrow.gov.uk/trafficconsultations which will direct you to a page containing the survey named ‘Honeypot Lane – Pedestrian crossing’. You may be asked to register your details before completing the survey.

If you do not have internet access, please complete the enclosed reply form and return it to the address below:

What about the emergency services – police, fire, ambulance etc?

The emergency services along with other interested parties are consulted individually for their opinion and views on the proposals.

What happens next?

We will consider all the comments returned to us, and if appropriate, modifications may be made to the scheme proposals. It is anticipated that the construction works will be completed by August 2017.

Further information

If you require further clarification or would like to discuss any issues related to the scheme, please contact Tushar Patel, at the address below:
