Honeypot Lane Road Safety Improvement Scheme

Introduction

Harrow Council works closely with Transport for London (TfL) to improve road safety focusing on reducing killed and seriously injured accidents throughout the borough and supports the objectives of the Mayor for London’s and our own Road Safety Plan to reduce killed and seriously injured accidents by 40% by 2020. This includes investigating and treating road traffic accidents and making improvements where it is considered necessary.

We have been successful in securing funding from TfL to address safety issues along Honeypot Lane between Queensbury Circle and Kingsbury Circle and we are therefore seeking your views on these proposals.

We have considered the recorded personal injury collision history and local issues and have developed proposals that will help address road safety concerns along this section of Honeypot Lane. The plan on the reverse of this letter shows the outline proposals and is summarised below.

- Reducing the number of vehicle collisions on the approach to the pedestrian crossing next to Queensbury Circle;
- Protecting right turning vehicles along Honeypot Lane between Queensbury Circle and Cumberland Road;
- Improving the safety of pedestrians crossing outside Queensbury Park towards Morrisons and B and Q;
- Improving the existing junction of Honeypot Lane and Cumberland Road; and,
- Improving pedestrian safety between the bus stops outside Morrisons.

Proposals

The proposals are targeted at addressing the safety and traffic congestion issues along Honeypot Lane. Please refer to the attached plans for more detail. The proposals include the following measures:

- **Junction Closure:**
  The junction of the Honeypot Lane service road between Glebe Avenue and Queensbury Circle to be closed to protect pedestrians crossing at the controlled pedestrian crossing adjacent to this junction. The location of this junction does not meet with current design guidance.

- **Improved right turn waiting areas:**
  Widening of the right turn waiting areas along Honeypot Lane between Queensbury Circle and Cumberland Road to protect vehicles waiting to turn right. Extending the length of these right turning areas will enable vehicles to position better and will improve drivers visibility of traffic ahead. Relocating the junction of the Honeypot Lane service road between Glebe Avenue and Malvern Gardens, and widening sections of Honeypot Lane will enable these improvements to the right turn areas.

- **Waiting and Loading Restrictions:**
  Introducing double yellow line at any time waiting and loading restrictions opposite the relocated junction of the Honeypot Lane service road between Glebe Avenue and Malvern Gardens to allow vehicles to turn safely in and out of this junction.

- **Honeypot Lane / Cumberland Road Junction Improvements:**
  A further study will be undertaken to review the movements of vehicles and pedestrians at the junction of Honeypot Lane and Cumberland Road.

- **Uncontrolled Pedestrian Crossing:**
  A new uncontrolled pedestrian crossing to be provided between the bus stops outside Morrisons to improve the safety of pedestrians crossing at this location. The southbound bus stop is to be relocated further south.
Please refer to the attached plans for more detail. The proposals include the following measures:

- Improving the existing junction of Honeypot Lane and Cumberland Road;
- Improving the safety of pedestrians crossing outside Queensbury Park towards Morrisons and B and Q;
- Protecting right turning vehicles along Honeypot Lane between Queensbury Circle and Cumberland;
- Reducing the number of vehicle collisions on the approach to the pedestrian crossing next to Queensbury.

We have considered the recorded personal injury collision history and local issues and have developed proposals.

We have been successful in securing funding from TfL to address safety issues along Honeypot Lane between Queensbury Circle and Kingsbury Circle and we are therefore seeking your views on these proposals that will help address road safety concerns along this section of Honeypot Lane. The plan on the reverse of this letter shows the outline proposals and is summarised below.

We will consider all the comments returned to us, and if appropriate, modifications may be made to the scheme proposals. It is anticipated that the construction works will be completed by April 2018.

What about the emergency services – police, fire, ambulance etc?

The emergency services along with other statutory parties are consulted individually for their opinion and views on the proposals.

Who is funding this scheme?

This scheme is entirely funded by TfL to address safety issues along Honeypot Lane. These monies cannot be used for any maintenance related works in the area.

Your views are welcomed

Please return your comments on these proposals by 22nd October 2017

If you are going to make comments on the proposals, the Council would encourage you to submit your response electronically as it is environmentally friendly and helps the council save costs. Please submit your comments by using the questionnaire on-line by visiting www.harrow.gov.uk/trafficconsultations which will direct you to a page containing the survey named Honeypot Lane – Road Safety Improvement Scheme. You may be asked to register your details before completing the survey.

If you do not have internet access, please complete the attached questionnaire and return it to:

Service Manager – Traffic, Highways and Asset Management
Harrow Council
PO Box 39
Civic Centre
Station Road
Harrow
HA1 2XA

Can I see the proposals in more detail?

A more detailed large-scale plan of the proposals can be viewed at:

Harrow Civic Centre - 4th Floor, Station Road, Harrow HA1 2XA

(Opening hours – 9am to 5pm, Monday to Friday)

What happens next?

We will consider all the comments returned to us, and if appropriate, modifications may be made to the scheme proposals. It is anticipated that the construction works will be completed by April 2018.

Further information

If you require further clarification or would like to discuss any issues related to the scheme, please contact the address below:
